Volume 37: Subject index

Abbreviations:—"(L)" refers to letters to the Editor.

Acetylcholinesterase in neuroblastoma, histochemical demonstration of, **288**
Acinetobacter calcoaceticus, gliding *vs* twitching motility of (L), **102, 103**
—— ——, serotyping, **1388**
Acromegaly, pituitary adenomas producing growth hormone in, **382**
Actinomyces odontolyticus isolated from female genital tract, **1379**
Adatab antibiotic susceptibility test results, comparison with results from disc methods, **1059**
Adenocarcinoma, ileal, complicating Crohn's disease, increased serum α-fetoprotein concentration in case of, **293**
Adenolymphoma. *See* Warthin's tumour
Adenoma, adrenal, black, primary tumorous aldosteronism due to, light and electron microscopic study of case of, **143**
Adenomas, pituitary, producing growth hormone in acromegaly, **382**
Adenosine deaminase and purine nucleoside phosphorylase deficiency, immune deficiency due to, diagnostic test on urine for, **1305**
Adenosis, sclerosing, and tubular carcinoma of breast, differential diagnosis with basement membrane proteins and apocrine epithelial antigens, **357**
Adenovirus and rotavirus, enteric, detection of, rapid method with polyacrylamide gel electrophoresis for, **1404**
Adrenal adenoma, black, primary tumorous aldosteronism due to, light and electron microscopic study of case of, **143**
Agar, sensitivity testing, growth of *Staphylococcus aureus* on, inhibition by *Streptococcus faecalis var zymogenes* (L), **228**
AIDS. *See* Immune deficiency syndrome, acquired
Albumin or α_2-macroglobulin, zinc bound to, concentrations in sera of healthy adults, **1050**
Alcohol, hepatocytes altered by, antibodies to, and suppressor T cell activity (L), **598**
——, liver disease induced by, review of, **721**; (L), **1317**
Alcoholic cirrhosis, plasminogen activators in, demonstration of increased tissue type and urokinase type activator, **772**
—— pancreatitis and chronic liver disease, blood group Lewis phenotyping on erythrocytes and saliva in, **778**
Alcoholism, chronic, skeletal muscle in, organelle pathology of, **448**
Aldosteronism, tumorous, primary, due to black adrenal adenoma, light and electron microscopic study of case of, **143**
Alkaline phosphatase, biliary, measurement by mini-column chromatography and electrophoresis and application to detection of liver metastases in breast cancer, **212**
—— ——, lactase, and sucrase activities, small intestinal, in 373 patients with coeliac disease, **298**
—— ——, placental type, in serum of cigarette smokers, **826**
—— ——, staining methods for immunohistochemistry, 2 new methods (L), **1078**
Allergy to food secondary to chronic inflammation, increased numbers of IgE containing cells in gastric and duodenal biopsies due to?, **601**
Allescheriasis. *See* Petriellidiosis
Alpha-1-antitrypsin. *See* α_1-Antitrypsin
Alpha fetoprotein. *See* α-Fetoprotein
Aluminium and iron, localisation by histochemical and laser microprobe mass analytical techniques in bone marrow cells of chronic haemodialysis patients (L), **837**
——, histochemical staining reactions for, and histoquantitative parameters in bone in chronic renal failure after reduction in aluminium concentration of haemodialysis fluid, **743**
—— in bone, detection and distribution of, **136**
Alzheimer's disease, immunoglobulin and other proteins in CSF in, **697**
Amine and peptide hormone production by lung carcinoid, clinicopathological and immunocytochemical study, **931**
Ammoniagenesis, increased, and renal tubular effects of potassium depletion, **1358**
Amniotic fluid and fetal and maternal serum, γ-glutamyl transferase activity during gestation, **700**
Amoebae, culture of, in laboratory diagnosis of intestinal protozoal infection, comparison with microscopy, **809**
Anaemia, sideroblastic, acquired, idiopathic, transforming to acute myelosclerosis, case of, **1032**
Anaerobic bacteria, clinically important, identification of, miniaturised method for, development and evaluation of, **70**
—— cocci, characterisation in diagnostic laboratory (L), **1197**
Aneuploidy in human tumours, clinical and biological significance of, review of, **961**
Angiotensin-converting enzyme activities in serum, increase in diabetes mellitus, analysis of diabetes type, state of metabolic control and occurrence of diabetic vascular disease, **307**
Antibasement membrane activity and immune deposits coexisting in glomerulonephritis, 6 cases of, **176**
Antibiotic susceptibility in *Streptococcus faecalis* strains reacting with both D and G antisera, **1289**
—— —— testing, comparison of results from Adatab and disc methods, **1059**
—— —— ——, two trials for UK national external quality assessment scheme, comparison of results, **321**
Antibiotics, patients with suspected bacteraemia receiving, antimicrobial removal device cost-effective addition to conventional blood cultures for?, **348**
——, preoperative, effect on small intestinal mucosal flora, shown by examination at resection, **1272**
——, timing of administration, influence on bacteraemia during prostatectomy and other transurethral operations, **673**
Antibodies against cytomegalovirus induced immediate early and early antigens, detection by ELISA, **122**
——, IgG and IgM, to brucella in infected and non-infected persons, estimation by radioimmune technique, **692**
——, monoclonal. *See* Monoclonal antibodies
—— to alcohol altered hepatocytes and suppressor T cell activity (L), **598**
—— to carcinoembryonic antigen and human milk fat globule in differentiation of carcinoma, mesothelioma, and reactive mesothelium, **1215**
—— to *Toxoplasma gondii*, measurement of, comparison of latex agglutination test with other serological tests for, **1293**
—— to urokinase, production of, active site directed inhibitor in, **1193**
Antibody, Ca 1, in diagnosis of invasive breast cancer, evaluation of, **10**
—— capture enzyme immunoassay, commercial (Rubenz M), for detection of rubella specific IgM, evaluation of, **573**
——, cytomegalovirus, detection in blood donors, comparative trial of 6 methods, **95**
——, IgA, specific, in Epstein-Barr virus infections, immunoperoxidase assay for detection of, **440**
——, ——, to *Chlamydia trachomatis* in serum detected by ELISA and immunofluorescence test in chlamydial infections, **686**
——, monoclonal. *See* Monoclonal antibody
—— response in human infection, *M pneumoniae* protein involved in, **1129**
—— to *Mycoplasma genitalium*, detection of, microimmunofluorescence technique for, **1072**

—— to pure human renin in immunocytochemical study of renin in renal cell carcinoma, **27**
Anti-DNA immunoassay and systemic lupus erythematosus (L), **354**
Antigen, Ca (Oxford), distribution in lung neoplasms and non-neoplastic lung tissues, **1**
——, —— ——, immunohistochemical detection in normal, dysplastic and neoplastic squamous epithelia of uterine cervix, **14**
——, —— ——, in epithelial tumours of ovary, **6**
——, CA 19-9™, as tumour marker in upper gastrointestinal diseases, comparison with α-fetoprotein and carcinoembryonic antigen, **218**
——, carcinoembryonic, and human milk fat globule, antibodies to, in differentiation of carcinoma, mesothelioma, and reactive mesothelium, **1215**
——, ——, in bone marrow in carcinoma, demonstration of, **1090**
——, epithelial membrane, in cells from uterine cervix and immunocytochemical staining of cervical smears, **984**
——, factor VIII-related, for demonstration of extramedullary megakaryopoiesis, value of, **834**; (L), **1317**
——, —— ——, in Hodgkin's disease, immunohistochemical localisation of, **37**
——, —— ——, lack of correlation between multimeric analysis pattern and parallel or non-parallel dose response curves in ELISA for, in normal subjects and in haemophilia and von Willebrand's disease, **194**
——, hepatitis B surface, localisation of, and patterns of chronic liver disease, in Kuwait, **549**
——, pneumococcal, detection in Bactec blood culture media, countercurrent immunoelectrophoresis for, anomalous results with, **571**
Antigenic determinant of granulocytes, widespread distribution in human tissues, **555**
Antigens, apocrine epithelial, and basement membrane proteins in differential diagnosis between tubular carcinoma and sclerosing adenosis of breast, **357**
——, bacterial, in cerebrospinal fluid, detection of, counter-immunoelectrophoresis for (L), **956**
——, cell membrane, and terminal deoxynucleotidyl transferase, method for simultaneous labelling, **628**
——, cytomegalovirus induced, immediate early and early, antibodies against, detection by ELISA, **122**
——, retrovirus, in prodromal case of acquired immune deficiency syndrome, ultrastructural demonstration with immuno-gold staining, **1399**
Antimicrobial removal device, cost-effective addition to conventional blood cultures for patients with suspected bacteraemia receiving antibiotics?, **348**
Antiplatelet drugs, inhibition of platelet impedance aggregation in whole blood by, **874**
Antithrombin III biological activity, depression in opiate addicts, **1040**
—— —— deficiency, congenital, acute myeloid leukaemia in patient with (L), **838**
—— —— metabolism in liver disease, **523**
α_1-Antitrypsin, serum concentrations, maternal, in normotensive and hypertensive pregnancies, **867**
API 20E method for identification of Enterobacteriaceae, comparison with Enterotube II, **344**
Apocrine epithelial antigens and basement membrane proteins in differential diagnosis between tubular carcinoma and sclerosing adenosis of breast, **357**
Argyrophil cells in normal, hyperplastic, and neoplastic endometrium, **378**
Arterial structure, morphometric analysis of, method for, **1413**
Automated equipment in microbiology laboratory, environmental contamination from, assessment of, **800**
Avidin-binding activity, endogenous, in lymphoid tissue, **223**
Axoalbumin technique, modified, for assay of proteolytic enzymes for blood group serology, **329**
B and T cells in blood, immunoperoxidase detection of, comparison with conventional methods, **1343**
—— cell acute lymphoblastic leukaemia in childhood, morphological heterogeneity in, **1348**
—— —— lymphoproliferative disorders, intracellular inclusion bodies in 14 patients with, **45**
Bactec blood culture media, countercurrent immunoelectrophoresis for detection of pneumococcal antigen in, anomalous results with, **571**
Bacteraemia, blood culture for, clinical significance of (L), **104**
—— due to *S viridans*, detection of, effect of volume of blood cultured, **568**
—— during prostatectomy and other transurethral operations, influence of timing of antibiotic administration, **673**
——, suspected, patients receiving antibiotics for, antimicrobial removal device cost-effective addition to conventional blood cultures for?, **348**
Bacteria, adhesion and invasion, rectal organ culture as model for investigation of, **587**
——, anaerobic, clinically important, identification of, miniaturised method for, development and evaluation of, **70**
——, β-lactamase-producing, detection in clinical specimens, rapid method for, **1392**
Bacterial antigens in cerebrospinal fluid, detection of, counter-immunoelectrophoresis for (L), **956**
—— conjunctivitis, acute, with maltose-negative meningococci, case of (L), **1416**
Bacteriuria, detection of, mechanised batch screening method for (L), **355**; (L), **957**
——, recurrent, in primary biliary cirrhosis, role of blood group (ABO and P_1) and secretor status in, **1055**
Barium sulphate, unusual histological appearances of, case report with scanning electron microscopy and energy dispersive *x* ray analysis, **488**
—— ——, varied light and scanning electron microscopic appearances in smears and histological sections, **481**
Barrett's oesophagus, mucin histochemistry of, prospective biopsy study, **607**
Basement membrane proteins and apocrine epithelial antigens in differential diagnosis between tubular carcinoma and sclerosing adenosis of breast, **357**
Behçet's disease, epidermal Langerhans' cells in, **616**
Bicarbonate output, colonic, as test of disease activity in ulcerative colitis, **704**
Bile acids, intragastric concentration, and mucosal abnormality in stomach after vagotomy and gastroenterostomy for duodenal ulcer, relation between, **506**
—— ——, total, in gastric juice, measurement of, **313**
—— ——. *See also* 3α-Hydroxy bile acid
Biliary alkaline phosphatase measurement by mini-column chromatography and electrophoresis and application to detection of liver metastases in breast cancer, **212**
—— cirrhosis, primary, recurrent bacteriuria in, role of blood group (ABO and P_1) and secretor status in, **1055**
Bilirubinometer, operation in special care baby unit (L), **715**
Biochemistry, bedside, in special care baby unit (L), **715**
Bladder and prostate, granulomata in, after previous operations (L), **104**
——, choriocarcinoma of, primary, evolving from transitional cell carcinoma, case of, **503**
——, prostatic, and colorectal cancer, epithelial markers (EMA, CEA, and prostatic acid phosphatase) in, immunoperoxidase study of, **1363**
——, tumour-associated eosinophilia in, **500**
Blood and vessel wall, human and rat plasminogen activators in, immunological comparison between, **1153**
—— bank laboratory, hospital, data processing system for, **1157**
—— collection system, evacuated, effect on coagulation screening tests (L), **597**
—— culture for bacteraemia, clinical significance of (L), **104**

—— cultures, automated detection of micro-organisms by Malthus Microbiological Growth Analyser in, trial of, **65**
—— ——, conventional, antimicrobial removal device cost-effective addition to, for patients with suspected bacteraemia receiving antibiotics?, **348**
——, cyclosporin in, distribution and concentration of, **1167**
—— donors, detection of cytomegalovirus antibody in, comparative trial of 6 methods, **95**
—— group (ABO and P_1) and secretor status, role in recurrent bacteriuria in primary biliary cirrhosis, **1055**
—— —— Lewis phenotyping on erythrocytes and saliva in alcoholic pancreatitis and chronic liver disease, **778**
—— —— serology, assay of proteolytic enzymes for, modified azoalbumin technique for, **329**
—— leucocyte culture for demonstration of fra(x) site, selection and use of method for, **475**
——, —— depletion of, new filter for, further evaluation of (L), **1415**
——, peripheral, white cell counts in Australian aborigines (L), **1077**
——, ——, —— —— ——, normal values in women of 4 different ethnic origins, **188**
—— platelet(s). *See* Platelet(s)
—— poor in leucocytes, provision at bedside, **669**
——, T and B cells in, immunoperoxidase detection of, comparison with conventional methods, **1343**
——, volume cultured, effect on detection of *S viridans* bacteraemia, **568**
Bone, aluminium in, detection and distribution of, **136**
——, histomorphometry of (L), **713**
—— histoquantitative parameters and histochemical staining reactions for aluminium, changes in chronic renal failure after reduction in aluminium concentration of haemodialysis fluid, **743**
—— marrow aspirations, routine, during maintenance treatment in acute lymphoblastic leukaemia, survival not improved by (L), **230**
—— —— cells of chronic haemodialysis patients, aluminium and iron in, localisation by histochemical and laser microprobe mass analytical techniques (L), **837**
—— —— fibre content in acute myeloid leukaemia before and after treatment, **1259**
—— —— in carcinoma, demonstration of carcinoembryonic antigen in, **1090**
—— ——, lymphoproliferations in, identification and evolution, classification and staging, **233**; *Erratum*, **600**
—— —— transplant recipients, value of serum C-reactive protein measurement in management of—in early transplant period, **1018**; in late post-transplant period, **1022**
—— —— transplantation for leukaemia, measurement of serum C reactive protein concentration after, **263**
—— —— ——, infection and graft versus host disease after, increased serum IgE concentrations during, **460**
—— —— transplants, allogeneic, skin morphological and immunohistological changes in recipients of, **919**
——, undemineralised, unfixed, preservation of sections of (L), **713**
Book reviews:
Acta Neurochirurgica, Suppl 32, *Trauma and Regeneration* (Special Symposium of the 9th International Congress of Neuropathology, 1982), 1983, **718**

—— —— ——: *Gestational Trophoblastic Diseases* (WHO Technical Report Series, 692), 1983, **600**
Books: new titles, **106, 232, 480, 600, 840, 960, 1080, 1200, 1320**
Bordetella pertussis, isolation of, benefits of using both Bordet-Gengou and charcoal agar media, **1071**
Brain trauma, primary, in non-accidental injury in infants, **1095**
Breast, carcinoma of, detection of liver metastases in, application of measurement of biliary alkaline phosphatase by mini-column chromatography and electrophoresis to, **212**
——, —— ——, ferritin, transferrin and lactoferrin distribution in tissue in, **51**
——, —— ——, invasive, Ca 1 antibody in diagnosis of, evaluation of, **10**
——, —— ——, tubular, and sclerosing adenosis of, differential diagnosis with basement membrane proteins and apocrine epithelial antigens, **357**
——, —— ——, vascular invasion in, immunocytochemistry in identification of, **364**
Brevibacterium spp from clinical sources, identification of, **1395**
Bronchi, larger, in byssinosis, morphometric study of, **20**
Bronchioalveolar tumour, intravascular, hepatic metastases in case of, **279**
Bronchoalveolar lavage fluid, cytological examination of, as diagnostic aid for immunocompromised patients with pulmonary infiltrates, **390**
Bronchogenic carcinoma, disseminated, and neutrophil leucocytosis, high colony stimulating activity in patient with, **665**
Brucella, IgG and IgM antibodies to, in infected and non-infected persons, estimation by radioimmune technique, **692**
Buffalo green monkey cells for isolation of *Chlamydia*, comparison with McCoy cells, **120**; *Erratum*, **480**
Byssinosis, larger bronchi in, morphometric study of, **20**

Ca (Oxford) antigen, distribution in lung neoplasms and non-neoplastic lung tissues, **1**
—— —— ——, immunohistochemical detection in normal, dysplastic and neoplastic squamous epithelia of uterine cervix, **14**
—— —— ——, in epithelial tumours of ovary, **6**
Ca 1 antibody in diagnosis of invasive breast cancer, evaluation of, **10**
CA 19-9™ antigen as tumour marker in upper gastrointestinal diseases, comparison with α-fetoprotein and carcinoembryonic antigen, **218**
Calcium, ionised, plasma concentrations in preterm infants, comparison with adults, **859**
CAM 5.2. *See* Monoclonal antibody (CAM 5.2)
Campylobacter biotyping scheme using 12 tests, epidemiological value of, **677**
—— detection by immunofluorescence in stools and rectal biopsies of patients with diarrhoea, **1007**
—— spp, susceptibility to inks (L), **1195**
Campylobacter jejuni isolation from faeces, enrichment culture necessary for? (L), **478, 479, 599**
—— ——, —— —— ——, improved blood free selective medium for (L), **956**
Campylobacter-like organisms on gastric mucosa, culture, histological, and serological studies, **1002**
Capnocytophaga ochracea infection, 2 cases and review of, **1066**
Carcinoembryonic antigen and human milk fat globule, antibodies to, in differentiation of carcinoma, mesothelioma, and reactive mesothelium, **1215**
—— —— as tumour marker in upper gastrointestinal diseases, comparison with CA 19-9™ and α-fetoprotein, **218**
—— —— in bone marrow in carcinoma, demonstration of, **1090**
Carcinoid, duodenal, glandular, rich in somatostatin and with neuroendocrine associations, 4 cases of, **163**
—— tumours of lung, amine and peptide hormone production,

clinicopathological and immunocytochemical study, **931**
Carcinoma, bronchogenic, disseminated, and neutrophil leucocytosis, high colony stimulating activity in patient with, **665**
——, carcinoembryonic antigen in bone marrow in, demonstration of, **1090**
——, mesothelioma, and reactive mesothelium, differentiation of, antibodies to carcinoembryonic antigen and human milk fat globule in, **1215**
——, microinvasive, of vulva and vulvar intraepithelial neoplasia, **1201**
——, nasopharyngeal, detection of S-100-labelled cells in, **1235**
—— of breast, detection of liver metastases in, application of measurement of biliary alkaline phosphatase by mini-column chromatography and electrophoresis to, **212**
—— —— ——, ferritin, transferrin and lactoferrin distribution in tissue in, **51**
—— —— ——, invasive, Ca 1 antibody in diagnosis of, evaluation of, **10**
—— —— ——, vascular invasion in, immunocytochemistry in identification of, **364**
—— of parathyroid gland, histological diagnosis of, **1370**
——, prostatic, bladder and colorectal, epithelial markers (EMA, CEA, and prostatic acid phosphatase) in, immunoperoxidase study of, **1363**
——, renal cell, renin in, immunocytochemical study with antibody to pure human renin, **27**
——, transitional cell, primary choriocarcinoma of bladder evolving from, case of, **503**
——, tubular, and sclerosing adenosis of breast, differential diagnosis with basement membrane proteins and apocrine epithelial antigens, **357**
Cardiac. *See* Heart
Cavitron ultrasonic surgical aspirator, histological appearances of intracranial biopsies obtained with, **1101**
Cell membrane antigens and terminal deoxynucleotidyl transferase, method for simultaneous labelling, **628**
—— monolayer preparation for diagnostic cytopathology, optimal use of poly-L-lysine in, **829**
Central nervous system. *See* Nervous system
Centrifuges, sealed containers for use in, evaluation by dynamic microbiological test method, **1134**
Cerebral tumours, serum creatine kinase levels in patients with (L), **1315**
Cerebrospinal fluid, bacterial antigens in, detection of, counter-immunoelectrophoresis for (L), **956**
—— —— in Alzheimer's disease, immunoglobulin and other proteins in, **697**
—— ——, inhibitory effect on growth of meningococci and pneumococci, **428**
—— —— shunts, removed, bacteriological examination of (L), **102**
Cervical epithelium, epitope of transferrin receptor in, demonstration with monoclonal antibody OKT9, **131**
—— intraepithelial neoplasia, laser ablation of, healing of cervical epithelium after, **611**
Cervix, uterine, epithelial membrane antigen in cells from, and immunocytochemical staining of cervical smears, **984**
——, ——, human papillomavirus infection of, histological appearances in 28 cases identified by immunohistochemical techniques, **126**
——, ——, squamous epithelia of, normal, dysplastic and neoplastic, immunohistochemical detection of Ca (Oxford) antigen in, **14**
Charcoal agar and Bordet-Gengou media for isolation of *Bordetella pertussis*, benefits of use in conjunction, **1071**
Chemlab automated method for nitrite estimation in gastric juice, **596**
Chemotaxis, measurement of, fluorimetric method for, **709**
Chlamydia trachomatis elementary bodies, detection in smears by fluorescein labelled monoclonal antibody, comparison with conventional chlamydial isolation, **812**
—— —— inclusions in McCoy and HeLa-229 cells, detection of, toluidine blue staining technique compared with other methods for, **682**
—— ——, isolation of, comparison of McCoy cells and Buffalo green monkey cells for, **120**; *Erratum*, **480**
—— ——, serum IgA antibody to, detected by ELISA and immunofluorescence test in chlamydial infections, **686**
Chlorpropamide, nesidioblastosis induced by, hyperinsulinaemic hypoglycaemia due to, case of, **651**
Choriocarcinoma of bladder, primary, evolving from transitional cell carcinoma, case of, **503**
Chorionic gonadotrophin, human. *See* Human chorionic gonadotrophin
Chromatography, gas liquid, direct, for detection of *C difficile* in faeces, **117**
——, mini-column, and electrophoresis, measurement of biliary alkaline phosphatase by and application to detection of liver metastases in breast cancer, **212**
Cirrhosis, alcoholic, plasminogen activators in, demonstration of increased tissue type and urokinase type activator, **772**
——, biliary, primary, recurrent bacteriuria in, role of blood group (ABO and P_1) and secretor status in, **1055**
Clinical biochemistry computer system, digitisers for entry of orders, urinalysis results, and isoenzyme interpretation in, **1182**
Clostridium difficile in faeces, detection by direct gas liquid chromatography, **117**
—— ——, isolation of, selective enrichment broth for, **98**
—— ——, rapid identification by direct detection of volatile organic acids from primary isolation media, **711**
—— *perfringens* type C causing necrotising enteritis, case of, **942**
—— *septicum* infection, neutropenic enterocolitis due to, **335**
Coagglutination with monoclonal and polyclonal antibody reagents in immunological identification of *Neisseria gonorrhoeae*, **1276**
Coagulation and platelet factors in proliferative diabetic retinopathy, **659**
—— screening tests, effect of evacuated blood collection system (L), **597**
Cobalamin and folate binding proteins in tumour tissue, **1336**
Cocci, anaerobic, characterisation in diagnostic laboratory (L), **1197**
Coeliac disease, small intestinal lactase, sucrase, and alkaline phosphatase activities in 373 patients with, **298**
Colitis, ulcerative, colonic bicarbonate output as test of disease activity in, **704**
Collagen stimulating factors from lung in experimental paraquat poisoning, *in vitro* and *in vivo* demonstration of, **537**
—— —— —— in hepatic fibrogenesis, **542**
—— type III, interstitial, laminin, and fibronectin, distribution in soft tissue tumours, **895**
Colon, bicarbonate output, as test of disease activity in ulcerative colitis, **704**
Colony stimulating activity, high, in patient with disseminated bronchogenic carcinoma and neutrophil leucocytosis, **665**
Colorectal, prostatic, and bladder cancer, epithelial markers (EMA, CEA, and prostatic acid phosphatase) in, immunoperoxidase study of, **1363**
Colorimetric enzymatic measurement of serum total 3α-hydroxy bile acid concentrations without extraction, **317**
Complement, alternative pathway of, role in opsonisation of serotype III of group B streptococci, **790**
Computer system in clinical biochemistry, digitisers for entry of orders, urinalysis results, and isoenzyme interpretation in, **1182**
Computer-aided microscopy in shape and texture analysis of liver cell nuclei in hepatomas, **755**
Computerisation of histopathology/cytology records using commercial data storage system, **157**
Computers in histopathology laboratory (L), **958**
Conjuctivitis, bacterial, acute, with maltose-negative meningococci, case of, **1416**
Containers, sealed, for use in centrifuges, evaluation by dynamic

microbiological test method, **1134**
Contamination, environmental, from automated equipment in microbiology laboratory, assessment of, **800**
Coronary periarteritis, chronic, in 2 patients with chronic periaortitis, **32**
Corrections, **107, 1080**
Corynebacterium diphtheriae, toxin production, detection of, results of UK External Quality Assessment Scheme trial, **796**
Counterimmunoelectrophoresis and double diffusion in serogrouping of *Legionella pneumophila*, **1308**
—— for detection of bacterial antigens in cerebrospinal fluid (L), **956**
—— —— —— of pneumococcal antigen in Bactec blood culture media, anomalous results with, **571**
—— in diagnosis of whooping cough, **950**
Coxsackie B virus specific IgM, radioimmunoassay for, heterotypic reactions in, **433**
C-reactive protein and β_2-microglobulin, serum concentrations in viral infections, **1140**
—— —— as aid to assessment and monitoring of acute pancreatitis, **207**
—— —— assay techniques for monitoring resolution of infection in immunosuppressed patients, **821**
—— —— in neonatal septicaemia, sequential study with latex agglutination test, **1014**
—— ——, serum concentration after bone marrow transplantation for leukaemia, measurement of, **263**
—— ——, —— —— in neonates, determination by latex enhanced immunoassay, **1027**
—— ——, —— ——, measurement of, value in management of bone marrow transplant recipients—in early transplant period, **1018**; in late post-transplant period, **1022**
Creatine kinase in serum, total and B subunit activity, and other enzyme activity, in young persons abusing solvents, **455**
—— —— isoenzyme, serum levels in patients with cerebral tumours (L), **1315**
—— —— measurement by Seralyzer systems using reflectance spectroscopy and reagent strips, effect of EDTA (L), **599**
Crohn's disease complicated by ileal adenocarcinoma, increased serum α-fetoprotein concentration in case of, **293**
—— —— of gall bladder, **516**
Cryptococcus neoformans, identification of, comparison of sensitivity of 3 methods, **332**
Culture storage in liquid nitrogen, overcoming hazards of (L), **840**
Cyclosporin in blood, distribution and concentration of, **1167**
Cysts of *Entamoeba histolytica* from faecal deposits, fluorescent technique for demonstrating chromatoid bodies and nuclei in (L), **101**
Cytokeratin, monoclonal antibody (CAM 5.2) to, for use in routine histopathology with special reference to epithelial tumours, **975**
Cytology and histology opinions, combined external quality assessment of, pilot scheme for cluster of 5 laboratories, **993**
Cytology/histopathology records, computerisation using commercial data storage system, **157**
Cytomegalovirus and human polyomaviruses BK and JC in renal transplant recipients, prospective study of, **578**
—— antibody detection in blood donors, comparative trial of 6 methods, **95**
——, immediate early and early antigens induced by, antibodies against, detection by ELISA, **122**

Data processing system for hospital blood bank laboratory, **1157**
Deaths, post-perinatal, small intestinal mucosal abnormalities in, **283**
Dendritic and histiocytic reticulum cells shown by zinc iodide-osmium technique, **620**
Diabetes mellitus controlled by insulin, defective phagocytosis in, with evidence for reaction between glucose and opsonising proteins, **783**
—— —— —— —— ——, phagocytic and bactericidal functions of granulocytes in, influence of glycaemic normalisation by artificial pancreas, **1029**
—— ——, exocrine pancreatic function in, **302**
—— ——, increased serum angiotensin-converting enzyme activities in, analysis of diabetes type, state of metabolic control and occurrence of diabetic vascular disease, **307**
Diabetic retinopathy, proliferative, platelet and coagulation factors in, **659**
Diarrhoea, campylobacter detection by immunofluorescence in stools and rectal biopsies of patients with, **1007**
Digitisers in clinical biochemistry computer system for entry of orders, urinalysis results, and isoenzyme interpretation, **1182**
DNA. *See also* Anti-DNA
Double diffusion and counterimmunoelectrophoresis in serogrouping of *Legionella pneumophila*, **1308**
Duodenal and gastric biopsies, IgE containing cells in, increased numbers due to food allergy secondary to chronic inflammation?, **601**
—— carcinoid, glandular, rich in somatostatin and with neuroendocrine associations, 4 cases of, **163**
—— ulcer, surgery for, relation between gastric histology and gastric juice pH and nitrite and N-nitroso compound concentrations in stomach after, **511**
—— ——, vagotomy and gastroenterostomy for, relation between intragastric bile acid concentration and mucosal abnormality in stomach after, **506**
Dyes, nomenclature of (L), **1195**

EDTA, effect on creatine kinase measurement by Seralyzer systems using reflectance spectroscopy and reagent strips (L), **599**
Elastase, leucocyte, in human tissues, immunohistochemical demonstration of, **1114**
Elderly subjects, healthy, iron uptake and excretion in, **1353**
Electron and light microscopy, prenatal diagnosis by, rapid processing of fetal skin for, **633**
—— microscopy, scanning and transmission, and light microscopy, sequential study of isolated glomerulus by, improved method for, **1075**
Electrophoresis and mini-column chromatography, measurement of biliary alkaline phosphatase by, and application to detection of liver metastases in breast cancer, **212**
ELISA and immunofluorescence test, serum IgA antibody to *Chlamydia trachomatis* in chlamydial infections detected by, **686**
—— in detection of antibodies against cytomegalovirus induced immediate early and early antigens, **122**
—— system, commercial, for typing herpes simplex virus, comparison with restriction endonuclease analysis, **937**
Endocarditis caused by *Rothia dentocariosa*, case of, **1298**
——, infective, caused by *Kingella denitrificans*, case of, **1384**
Endometrium, normal, hyperplastic, and neoplastic, argyrophil cells in, **378**
Endoscopic biopsies of human stomach, spiral organisms in, **23**: (L), **714**
—— screening for malignancy in gastric remnant and clinical significance of dysplasia in gastric mucosa, **748**
Endotoxaemia as cause of fever in immunosuppressed patients, **467**
β Enolase as histological marker of rhabdomyosarcoma, **905**
Entamoeba histolytica cysts from faecal deposits, fluorescent technique for demonstrating chromatoid bodies and nuclei in (L), **101**
Enteric adenovirus and rotavirus, detection of, rapid method with polyacrylamide gel electrophoresis for, **1404**
Enteritis, necrotising, due to *Clostridium perfringens* type C, case of, **942**
Enterobacteriaceae, identification of, comparison of Enterotube II and API 20E methods for, **344**

Enterocolitis, neutropenic, due to *Clostridium septicum* infection, **335**
Enteropathies, childhood, small intestinal mucosal fat in, **373**; (L), **1195**
Enteropathogens, localisation in paraffin embedded tissue by indirect immunoperoxidase technique, **645**
Enterotube II method for identification of Enterobacteriaceae, comparison with API 20E, **344**
Enzymatic digestion and fixation, effects on immunohistochemical demonstration of laminin and fibronectin in paraffin embedded tissue, **639**
Enzyme-linked immunosorbent assay. *See* ELISA
Eosinophil polymorphs in Hodgkin's disease, quantitative study of, **267**
Eosinophilia, tumour-associated, in bladder, **500**
Epidermal Langerhans' cells in Behçet's disease, **616**
Epithelial markers (EMA, CEA, and prostatic acid phosphatase) in prostatic, bladder, and colorectal cancer, immunoperoxidase study of, **1363**
—— membrane antigen in cells from uterine cervix and immunocytochemical staining of cervical smears, **984**
Epstein-Barr virus infections, specific IgA antibody in, immunoperoxidase assay for detection of, **440**
Erythrocytes and saliva, blood group Lewis phenotyping on, in alcoholic pancreatitis and chronic liver disease, **778**
Esterase cytochemical reaction, double, single incubation, using single coupling agent, **1187**

Factor VIII concentrate as source of fibronectin for replacement therapy (L), **1196**
—— VIII-related antigen for demonstration of extramedullary megakaryopoiesis, value of, **834**; (L), **1317**
—— —— —— in Hodgkin's disease, immunohistochemical localisation of, **37**
—— —— ——, lack of correlation between multimeric analysis pattern and parallel or non-parallel dose response curves in ELISA for, in normal subjects and in haemophilia and von Willebrand's disease, **194**
—— XIII, localisation in human tissues with immunoperoxidase technique, **560**
Faecal deposits, *Entamoeba histolytica* cysts from, fluorescent technique for demonstrating chromatoid bodies and nuclei in (L), **101**
Faeces, *Campylobacter jejuni* isolation from, enrichment culture necessary for? (L), **478, 479, 599**
——, —— —— —— ——, improved blood free selective medium for (L), **956**
——, *Clostridium difficile* in, detection by direct gas liquid chromatography, **117**
Fanconi syndrome, adult, progressing to multiple myeloma, case of, **1256**
Fasciitis, necrotising, caused by *Vibrio vulnificus*, case of, **1301**
Fat absorption, continuous marker test for (L), **598**
——, small intestinal mucosal, in childhood enteropathies, **373**
Ferritin, transferrin and lactoferrin, distribution in breast carcinoma tissue, **51**
Fetal skin, rapid processing for prenatal diagnosis by light and electron microscopy, **633**
α-Fetoprotein as tumour marker in upper gastrointestinal diseases, comparison with CA 19-9™ and carcinoembryonic antigen, **218**
——, serum concentration, increase in case of ileal adenocarcinoma complicating Crohn's disease, **293**
Fever in immunosuppressed patients, endotoxaemia as cause of, **467**
Fibrin derivatives, cross linked, in plasma, measurement by immunoassay with monoclonal antibodies, **882**
Fibrinolytic proteins, consumption in menstrual fluid from women with normal menstrual blood loss, **879**
—— system in pre-eclampsia, **56**
Fibroblast culture, storage of skin biopsies at −70°C for, **1191**
Fibronectin and laminin, immunohistochemical demonstration in paraffin embedded tissue, effects of fixation and enzymatic digestion, **639**
—— as opsonic regulator of monocyte phagocytosis, **787**
—— for replacement therapy, factor VIII concentrate as source of (L), **1196**
——, laminin, and interstitial collagen type III, distribution in soft tissue tumours, **895**
——, plasma concentration, determination of, sample collection for, **951**
Fixation and enzymatic digestion, effects on immunohistochemical demonstration of laminin and fibronectin in paraffin embedded tissue, **639**
Fluorimetric method for measurement of chemotaxis, **709**
Folate and cobalamin binding proteins in tumour tissue, **1336**
—— and vitamin B_{12}, commercial radioassay for simultaneous estimation of, evaluation of, and establishment of normal reference range, **1327**
Folic acid, competitive protein binding radioassay of, in detection of folic acid deficiency, evaluation of, **888**
Food allergy secondary to chronic inflammation, increased numbers of IgE containing cells in gastric and duodenal biopsies due to?, **601**
Food-borne infection by Norwalk like virus (small round structured virus), **817**
Formaldehyde and xylene fumes, removal from histopathology laboratories and design of extraction systems, **401**
Fragile-x site, blood leucocyte culture for demonstration of, selection and use of method for, **475**

Gall bladder, Crohn's disease of, **516**
Gallocyanin, 'oxidised', with chromic potassium sulphate in demonstration of nucleic acids, methods and applications, **99**
Gardnerella vaginalis isolation from women attending gynaecological clinics and general practice surgeries (L), **839**; *Erratum*, **1080**
Gas liquid chromatography, direct, for detection of *C difficile* in faeces, **117**
Gastric and duodenal biopsies, IgE containing cells in, increased numbers due to food allergy secondary to chronic inflammation?, **601**
—— glands, isolated, pepsinogen synthesis and secretion in, **531**
—— histology and gastric juice pH and nitrite and N-nitroso compound concentrations in stomach after surgery for duodenal ulcer, relation between, **511**
—— juice, measurement of total bile acids in, **313**
—— ——, nitrite estimation in, automated (Chemlab) method for, **596**
—— mucosa, campylobacter-like organisms on, culture, histological, and serological studies, **1002**
—— remnant, malignancy in, endoscopic screening for, and clinical significance of dysplasia in gastric mucosa, **748**
Gastroenterostomy and vagotomy for duodenal ulcer, relation between intragastric bile acid concentration and mucosal abnormality in stomach after, **506**
Gastrointestinal diseases, upper, comparison of CA 19-9™ as tumour marker with α-fetoprotein and carcinoembryonic antigen in, **218**
Genital and throat isolates of meningococci, plasmids in, **1123**
—— tract, female, *Actinomyces odontolyticus* isolated from, **1379**
Gestation, γ-glutamyl transferase activity in fetal and maternal serum and amniotic fluid during, **700**
Glandular duodenal carcinoid rich in somatostatin and with neuroendocrine associations, 4 cases of, **163**
Glomerular function and hyperuricaemia in sickle cell disease, **1046**
Glomerulonephritis with coexistent immune deposits and antibasement membrane activity, 6 cases of, **176**
Glomerulus, isolated, sequential study by scanning electron, trans-

mission electron, and light microscopy, improved method for, **1075**
Glucose agar, serum, as transport medium for *Streptococcus pyogenes*, **226**
γ-Glutamyl transferase activity in fetal and maternal serum and amniotic fluid during gestation, **700**
Glycosylated haemoglobin, determination of, comparison of 5 commercial kits, **1177**
—— ——, measurement and clinical use, review of, **841**
Graft versus host disease and infection after bone marrow transplantation, increased serum IgE concentrations during, **460**
Granulocytes, antigenic determinant of, widespread distribution in human tissues, **555**
——, phagocytic and bactericidal functions in insulin-dependent diabetics, influence of glycaemic normalisation by artificial pancreas, **1029**
Granuloma inguinale (Donovanosis), extragenital, clinical, histological, and electron microscopical study of case diagnosed in UK, **945**
Granulomata in bladder and prostate after previous operations (L), **104**
——, necrotising, in prostatic resection specimens as sequel to previous operation (L), **354**
Granulomatous prostatitis, necrotising, after transurethral resection (L), **103**
Growth hormone, pituitary adenomas producing, in acromegaly, **382**

Haemodialysis fluid, aluminium concentration, reduction in, changes in bone histoquantitative parameters and histochemical staining reactions for aluminium in chronic renal failure after, **743**
——, maintenance, splenic siderosis and parenteral iron dextran in patients on, **59**
—— patients, chronic, aluminium and iron in bone marrow cells of, localisation by histochemical and laser microprobe mass analytical techniques (L), **837**
Haemoglobin, glycosylated, determination of, comparison of 5 commercial kits, **1177**
——, ——, measurement and clinical use, review of, **841**
——, immunohistochemical technique for, in demonstration of normoblasts in tissue sections, **1312**
Haemolytic uraemic syndrome, necrosis of pancreas in, case of, **655**
Haemophilia A, classical, and type IIA von Willebrand's disease, simultaneous inheritance and expression of, **1035**
—— and von Willebrand's disease, lack of correlation between factor VIII related antigen multimeric analysis pattern and parallel or non-parallel dose response curves in ELISA in, **194**
Haemophilus influenzae, laboratory identification of, evaluation of tests for (L), **479, 480**
Haemorrhage, subarachnoid, traumatic, alternative (intracranial) source for, **1245**
Haemorrheological effects of prostaglandin E_1 infusion in Raynaud's syndrome, **870**
Haemosiderin identification in immunoperoxidase stained sections, simple technique for, **1190**
Head injury, non-accidental, in infants, primary brain trauma in, **1095**
Heart disease, coronary, selenium and vitamin E in relation to risk factors for, **200**; (L), **837**
—— transplantation, disseminated toxoplasmosis in, case of, **74**
HeLa-229 and McCoy cells, *Chlamydia trachomatis* inclusions in, detection of, toluidine blue staining technique compared with other methods for, 682
Hepatic fibrogenesis, collagen stimulating factors in, **542**
—— metastases in case of intravascular bronchioloalveolar tumour, **279**
——. *See also* Liver
Hepatitis A, B, and non-A, non-B in Danish hospital nursing staff, **763**
—— B surface antigen, localisation of, and patterns of chronic liver disease, in Kuwait, **549**
Hepatoblastoma resulting in precocious puberty in 2-year-old boy, production of human chorionic gonadotrophin by, **734**
Hepatocytes altered by alcohol, antibodies to, and suppressor T cell activity (L), **598**
Hepatomas, liver cell nuclei in, shape and texture analysis by computer aided microscopy, **755**
Herpes simplex lymphadenitis, case report and review, **1119**
—— —— virus, typing of, comparison of commercial ELISA system with restriction endonuclease analysis for, **931**
Histiocytic and dendritic reticulum cells shown by zinc iodide-osmium technique, **620**
—— reticulum cells in diffuse and follicular non-Hodgkin's lymphomas, quantitative study of, **1222**
Histology and cytology opinions, combined external quality assessment of, pilot scheme for cluster of 5 laboratories, **993**
Histopathology, external quality assessment scheme for, **409**
—— laboratories, removal of formaldehyde and xylene fumes from, and design of extraction systems, **401**
—— laboratory, computers in (L), **958**
Histopathology/cytology records, computerisation using commercial data storage system, **157**
Hodgkin's disease, eosinophil polymorphs in, quantitative study of, **267**
—— ——, factor VIII-related antigen in, immunohistochemical localisation of, **37**
—— ——, mast cells in, quantitative study of, **519**
—— ——, Reed-Sternberg/lymphocyte rosette and lymphocyte subpopulations defined by monoclonal antibodies in, **767**
—— ——, treated, biphenotypic leukaemia in (L), **1314**
Hospital blood bank laboratory data processing system, **1157**
Howie Code for laboratory safety, real costs of, **83**
Human chorionic gonadotrophin production by hepatoblastoma resulting in precocious puberty in 2-year-old boy, **734**
3α-Hydroxy bile acid, serum concentrations, total, colorimetric enzymatic measurement without extraction, **317**
Hyperplastic and neoplastic endometrium, argyrophil cells in, **378**
Hypertension of pregnancy, maternal serum α_1-antitrypsin concentrations in, **867**
Hyperuricaemia and glomerular function in sickle cell disease, **1046**
Hypoglycaemia, hyperinsulinaemic, due to chlorpropamide-induced nesidioblastosis, case of, **651**

Ileal adenocarcinoma complicating Crohn's disease, increased serum α-fetoprotein concentration in case of, **293**
Ileum and jejunum, mucosal flora and Paneth cell population of, relation between, **1268**
Iliac bone histomorphometry in adults and children with osteogenesis imperfecta, **1081**
Image analysis as quantitative technique for study of normal and diseased microvasculature, **352**
Immune deficiency due to adenosine deaminase and purine nucleoside phosphorylase deficiency, diagnostic test on urine for, **1305**
—— —— syndrome, acquired, diagnostic difficulties in (L), **1316**
—— —— ——, ——, in patient with no known risk factors, pathological study of, **471**
—— —— ——, — –, prodromal case of, retrovirus antigens in, ultrastructural demonstration with immuno-gold staining, **1399**
—— deposits and antibasement membrane activity coexisting in glomerulonephritis, 6 cases of, **176**
Immunocytochemical localisation of renin in nephroblastoma, **738**
—— staining procedure for lymphoid cell surface markers done on cell smears, **708**
Immunocytochemistry in identification of vascular invasion in breast cancer, **364**

Immunoelectron microscopy, fixed stored materials for, advantages of, and use for study of malignant lymphomas, **953**
Immunoelectrophoresis, countercurrent. *See* Counterimmunoelectrophoresis
Immunofluorescence for detection of campylobacter in stools and rectal biopsies of patients with diarrhoea, **1007**
—— test and ELISA, serum IgA antibody to *Chlamydia trachomatis* in chlamydial infections detected by, **686**
Immunoglobulin A antibody, specific, in Epstein-Barr virus infections, immunoperoxidase assay for detection of, **440**
—— —— —— to *Chlamydia trachomatis* in serum detected by ELISA and immunofluorescence test in chlamydial infections, **686**
—— and other proteins in CSF in Alzheimer's disease, **697**
—— E, cells containing, in gastric and duodenal biopsies, increased numbers due to food allergy secondary to chronic inflammation?, **601**
—— ——, serum concentrations, increase during infection and graft versus host disease after bone marrow transplantation, **460**
—— G and M brucella antibodies in infected and non-infected persons, estimation by radioimmune technique, **692**
—— M, Coxsackie B virus specific, radioimmunoassay for, heterotypic reactions in, **433**
—— ——, rubella specific, commercial antibody capture immunoassay (Rubenz M) for detection of, evaluation of, **573**
——, monoclonal, in serum, detection and identification by immunoisoelectric focusing, limits of sensitivity and use during relapse of multiple myeloma, **255**
—— standards, international, reassignment of gram/litre values for (L), **836**
Immuno-gold staining in ultrastructural demonstration of retrovirus antigens in prodromal case of acquired immune deficiency syndrome, **1399**
Immunohistochemical demonstration of laminin and fibronectin in paraffin embedded tissue, effects of fixation and enzymatic digestion, **639**
Immunoisoelectric focusing in detection and identification of serum monoclonal immunoglobulin, limits of sensitivity and use during relapse of multiple myeloma, **255**
Immunoperoxidase assay for detection of specific IgA antibody in Epstein-Barr virus infections, **440**
—— detection of T and B cells in blood, comparison with conventional methods, **1343**
——, identification of haemosiderin in sections stained with, simple technique for, **1190**
——, isoelectric focusing using, quantification of bands produced by, **1172**
—— study of epithelial markers (EMA, CEA, and prostatic acid phosphatase) in prostatic, bladder, and colorectal cancer, **1363**
—— technique in localisation of factor XIII in human tissues, **560**
—— ——, indirect, in localisation of enteropathogens in paraffin embedded tissues, **645**
Immunosuppressed patients, C-reactive protein assay techniques for monitoring resolution of infection in, **821**
Infection, human, antibody response in, *M pneumoniae* protein involved in, **1129**
Inks, susceptibility of Campylobacter spp to (L), **1195**
Insulin, diabetics controlled by, defective phagocytosis in, with evidence for reaction between glucose and opsonising proteins, **783**
——, —— —— ——, phagocytic and bactericidal functions of granulocytes in, influence of glycaemic normalisation by artificial pancreas, **1029**
Intensive care unit, *P aeruginosa* in sinks in, relation to patient infection, **424**
Interferons, review of current knowledge of, **109**
Intestinal protozoal infection, laboratory diagnosis of, comparison of microscopy and culture in, **809**
Intestine, small, lactase, sucrase, and alkaline phosphatase activities in 373 patients with coeliac disease, **298**
——, ——, mucosal abnormalities in post-perinatal deaths, **283**
——, ——, —— fat in childhood enteropathies, **373**; (L), **1195**
——, ——, —— flora, examination at resection and effect of preoperative antibiotics, **1272**
Intracellular inclusion bodies in 14 patients with B cell lymphoproliferative disorders, **45**
Intracranial biopsies obtained with Cavitron ultrasonic surgical aspirator, histological appearances of, **1101**
Intragastric bile acid concentration and mucosal abnormality in stomach after vagotomy and gastroenterostomy for duodenal ulcer, relation between, **506**
Iron and aluminium, localisation by histochemical and laser microprobe mass analytical techniques in bone marrow cells of chronic haemodialysis patients (L), **837**
—— uptake and excretion by healthy elderly subjects, **1353**
Iron dextran, parenteral, and splenic siderosis in maintenance haemodialysis patients, **59**
Isoelectric focusing using immunoperoxidase, quantification of bands produced by, **1172**

Jejunum and ileum, mucosal flora and Paneth cell population of, relation between, **1268**

Kidney, cortical microcystic disease of, with dominant inheritance, new syndrome of, **494**
Kingella denitrificans, infective endocarditis caused by, case of, **1384**
Kirchner medium, selective, in culture of specimens for mycobacteria (L), **598**

Laboratory, blood bank, hospital, data processing system for, **1157**
——, histopathology, computers in (L), **958**
——, ——, removal of formaldehyde and xylene fumes from, and design of extraction systems, **401**
——, microbiology, automated equipment in, environmental contamination from, assessment of, **800**
—— safety, Howie Code for, real costs of, **83**
β-Lactamase, bacteria producing, detection in clinical specimens, rapid method for, **1392**
Lactase, sucrase, and alkaline phosphatase activities, small intestinal, in 373 patients with coeliac disease, **298**
Lactoferrin, ferritin and transferrin, distribution in breast carcinoma tissue, **51**
Laminin and fibronectin, immunohistochemical demonstration in paraffin embedded tissue, effects of fixation and enzymatic digestion, **639**
——, fibronectin, and interstitial collagen type III, distribution in soft tissue tumours, **895**
Langerhans' cells, epidermal, in Behçet's disease, **616**
Laser ablation of cervical intraepithelial neoplasia, healing of cervical epithelium after, **611**
—— microprobe mass analysis in localisation of aluminium and iron in bone marrow cells of chronic haemodialysis patients (L), **837**
Latex agglutination test for measurement of antibodies to *Toxoplasma gondii*, comparison with other serological tests, **1293**
—— —— —— in sequential study of C-reactive protein in neonatal septicaemia, **1014**
Latex-enhanced immunoassay in determination of C-reactive protein concentrations in neonates, **1027**
Legionella pneumophila serogrouping by double diffusion and counterimmunophoresis, **1308**
Leucocyte counts in peripheral blood in Australian aborigines (L), **1077**
—— —— —— —— ——, normal values in women of 4 different ethnic origins, **188**

—— depletion of blood, new filter for, further evaluation of (L), **1415**
—— elastase in human tissues, immunohistochemical demonstration of, **1114**
Leucocytes, blood poor in, provision at bedside, **669**
——, culture for demonstration of fra(x) site, selection and use of method for, **475**
Leucocytosis, neutrophil, and disseminated bronchogenic carcinoma, high colony stimulating activity in patient with, **665**
Leukaemia, biphenotypic, in treated Hodgkin's disease (L), **1314**
——, bone marrow transplantation for, measurement of serum C reactive protein concentration after, **263**
——, lymphoblastic, acute, refractory, disseminated petriellidiosis in patient with, **78**
——, ——, ——, routine bone marrow aspirations during maintenance treatment in, survival not improved by (L), **230**
——, ——, B cell, acute, in childhood, morphological heterogeneity in, **1348**
——, lymphocytic, chronic, serum paraproteins in, **463**
——, ——, ——, terminating in acute myelofibrosis, **564**
——, myeloid, acute, bone marrow fibre content before and after treatment in, **1259**
——, ——, ——, in patient with congenital antithrombin III deficiency (L), **838**
——, ——, ——, platelet defect in, **1339**
Light and electron microscopy, prenatal diagnosis by, rapid processing of fetal skin for, **633**
—— microscopy and scanning electron and transmission electron microscopy, sequential study of isolated glomerulus by, improved method for, **1075**
Lipoprotein receptors, human, pathophysiology and clinical consequences of cellular defect, **87**
Liver cell nuclei in hepatomas, shape and texture analysis by computer aided microscopy, **755**
—— disease, antithrombin III metabolism in, **523**
—— ——, chronic, and alcoholic pancreatitis, blood group Lewis phenotyping on erythrocytes and saliva in, **778**
—— ——, ——, patterns of, and localisation of hepatitis B surface antigen, in Kuwait, **549**
—— —— induced by alcohol, review of, **721**; (L), **1317**
—— metastases, detection in breast cancer, application of measurement of biliary alkaline phosphatase by mini-column chromatography and electrophoresis to, **212**
——. *See also* Hepatic
Lung carcinoids, amine and peptide hormone production, clinicopathological and immunocytochemical study, **931**
——, collagen stimulating factors in experimental paraquat poisoning, *in vitro* and *in vivo* demonstration of, **537**
—— neoplasms and non-neoplastic lung tissues, Ca (Oxford) antigen distribution in, **1**
——, testicular teratoma metastatic to, effect of chemotherapy on histological appearances of, correlation with survival, **1212**
Lupus erythematosus, systemic, and anti-DNA immunoassay (L), **354**
—— ——, ——, pancytopenia in, myelofibrosis as cause of (L), **714**
Lymphadenitis, herpes simplex, case report and review, **1119**
Lymphoblastic leukaemia, acute, refractory, disseminated petriellidiosis in patient with, **78**
—— ——, ——, routine bone marrow aspirations during maintenance treatment in, survival not improved by (L), **230**
—— ——, B cell, acute, in childhood, morphological heterogeneity in, **1348**
Lymphocyte subpopulations defined by monoclonal antibodies and Reed-Sternberg/lymphocyte rosette in Hodgkin's disease, **767**
—— subsets and accessory cells, localisation in human Mantoux reactions, histometric study of, **1227**
Lymphocytes. *See* T and B cells
Lymphocytic leukaemia, chronic, serum paraproteins in, **463**
—— ——, ——, terminating in acute myelofibrosis, **564**
Lymphoid cell surface markers, immunocytochemical staining procedure done on cell smears for, **708**
—— tissue, endogenous avidin-binding activity in, **223**
Lymphomas, malignant, immunoelectron microscopy in study of, advantages of fixed stored materials for, **953**
——, non-B, non-T, immunohistological study on frozen tissues with monoclonal antibodies, **911**
——, non-Hodgkin's, diffuse and follicular, histiocytic reticulum cells in, quantitative study of, **1222**
Lymphoproliferations in bone marrow, identification and evolution, classification and staging, **233**; *Erratum*, **600**
Lymphoproliferative disorders, B cell, intracellular inclusion bodies in 14 patients with, **45**

McCoy and HeLa-229 cells, *Chlamydia trachomatis* inclusions in, detection of, toluidine blue staining technique compared with other methods for, **682**
—— cells for isolation of *Chlamydia*, comparison with Buffalo green monkey cells, **120**; *Erratum*, **480**
α_2-Macroglobulin or albumin, zinc bound to, concentrations in sera of healthy adults, **1050**
Macrophages and microglial cells in central nervous system, identification of, comparison of methods, **150**
Malignancy in gastric remnant, endoscopic screening for, and clinical significance of dysplasia in gastric mucosa, **748**
Malonyldialdehyde production in platelets in thalassaemia major, **1043**
Malthus Microbiological Growth Analyser in automated detection of micro-organisms in blood cultures, trial of, **65**
Maltose-negative meningococci, acute bacterial conjunctivitis with, case of (L), **1416**
Mantoux reactions, human, localisation of lymphocyte subsets and accessory cells in, histometric study of, **1227**
Marrow. *See* Bone marrow
Mast cells, human, detection by monoclonal antibodies, **1249**
—— —— in Hodgkin's disease, quantitative study of, **519**
Meconium ileus equivalent, pathology of (L), **957**
Mediastinal teratoma, benign, pancreatic endocrine tissue in, **1105**
Megakaryopoiesis, extramedullary, demonstration of, value of factor VIII related antigen for, **834**; (L), **1317**
Melanocytic lesions, benign and malignant, assessment with monoclonal antibody (NK1 C3), **367**
Melanomas, measurement of, use of Vernier scales for (L), **229**
Meningococci and pneumococci, growth of, inhibitory effect of cerebrospinal fluid, **428**
——, maltose-negative, acute bacterial conjunctivitis with, case of (L), **1416**
——, throat and genital isolates of, plasmids in, **1123**
Menstrual fluid from women with normal menstrual blood loss, consumption of fibrinolytic proteins in, **879**
Mesothelioma, reactive mesothelium, and carcinoma, differentiation of, antibodies to carcinoembryonic antigen and human milk fat globule in, **1215**
Microbiology laboratory, automated equipment in, environmental contamination from, assessment of, **800**
Microcystic disease of renal cortex with dominant inheritance, new syndrome of, **494**
Microglial cells and macrophages in central nervous system, identification of, comparison of methods, **150**
β_2-Microglobulin and C-reactive protein, serum concentrations in viral infections, **1140**
Microimmunofluorescence technique for detection of antibody to *Mycoplasma genitalium*, **1072**
Microscopy, computer aided, in shape and texture analysis of liver cell nuclei in hepatomas, **755**
—— in laboratory diagnosis of intestinal protozoal infection, comparison with culture, **809**
Microvasculature, normal and diseased, image analysis as quantitative technique for study of, **352**
Milk fat globule, human, and carcinoembryonic antigen, antibodies

to, in differentiation of carcinoma, mesothelioma, and reactive mesothelium, **1215**
Minerals and proteins in plasma, early changes after surgery, 2-stage pattern of, **862**
Monoclonal and polyclonal antibody coagglutination reagents in immunological identification of *Neisseria gonorrhoeae*, **1276**
—— antibodies in detection of human mast cells, **1249**
—— —— in immunoassay for measurement of cross linked fibrin derivatives in plasma, **882**
—— —— in immunohistological study on frozen tissues of non-B, non-T lymphomas, **911**
—— ——, lymphocyte subpopulations defined by, and Reed-Sternberg/lymphocyte rosette in Hodgkin's disease, **767**
—— antibody, fluorescein labelled, in detection of *Chlamydial trachomatis* elementary bodies in smears, comparison with conventional chlamydial isolation, **812**
—— —— (CAM 5.2) to cytokeratin for use in routine histopathology with special reference to epithelial tumours, **975**
—— —— (NK1 C3) in assessment of benign and malignant melanocytic lesions, **367**
—— —— (OKT9) in demonstration of epitope of transferrin receptor in cervical epithelium, **131**
—— immunoglobulin in serum, detection and identification by immunoisoelectric focusing, limits of sensitivity and use during relapse of multiple myeloma, **255**
Monocyte phagocytosis, fibronectin as opsonic regulator of, **787**
Mucin histochemistry of columnar epithelium of oesophagus (Barrett's oesophagus), prospective biopsy study, **607**
Mucosa, gastric. *See* Gastric mucosa
Mucosal abnormalities in small intestine in post-perinatal deaths, **283**
—— abnormality in stomach and intragastric bile acid concentration after vagotomy and gastroenterostomy for duodenal ulcer, relation between, **506**
—— fat, small intestinal, in childhood enteropathies, **373**; (L), **1195**
—— flora and Paneth cell population of jejunum and ileum, relation between, **1268**
—— —— of small intestine, examination at resection and effect of preoperative antibiotics, **1272**
—— prolapse syndrome (L), **356**
Muscle, skeletal, organelle pathology in chronic alcoholism, **448**
Mycobacteria, culture of specimens for, selective Kirchner medium in (L), **598**
Mycoplasma genitalium, antibody to, detection of, microimmunofluorescence technique for, **1072**
—— *pneumoniae* protein involved in antibody response in human infection, **1129**
Myelofibrosis, acute, chronic lymphocytic leukaemia terminating in, **564**
—— as cause of pancytopenia in systemic lupus erythematosus (L), **714**
Myeloid leukaemia, acute, bone marrow fibre content before and after treatment in, **1259**
—— ——, ——, in patient with congenital antithrombin III deficiency (L), **838**
—— ——, ——, platelet defect in, **1339**
Myeloma, multiple, adult Fanconi syndrome progressing to, case of, **1256**
——, ——, relapse of, use of immunoisoelectric focusing for detection and identification of serum monoclonal immunoglobulin during, **255**
Myelomatosis, proximal renal tubular function in (4th MRC myelomatosis trial), **852**
Myelosclerosis, acutre, idiopathic acquired sideroblastic anaemia transforming to, case of, **1032**
Myocardial infarction, recent, phenazine methosulphate in nitroblue tetrazolium macroreaction for (L), **477**
Myocardium, left ventricular, penetration by benign peptic ulceration, 2 cases and review, **1239**
Nasopharyngeal carcinoma, detection of S-100-labelled cells in, **1235**
Neisseria gonorrhoeae, immunological identification with monoclonal and polyclonal antibody coagglutination reagents, **1276**
Neonates and pregnant women at term in Saudi Arabia, vitamin D nutrition in, **444**
——, C-reactive protein concentrations in, determination by latex enhanced immunoassay, **1027**
——, full term, physiological activation of plasminogen in, **1264**
Neoplasia, cervical intraepithelial, laser ablation of, healing of cervical epithelium after, **611**
——, vulval intraepithelial, and microinvasive carcinoma of vulva, **1201**
Neoplasms of lung, Ca (Oxford) antigen distribution in, **1**
Neoplastic and hyperplastic endometrium, argyrophil cells in, **378**
—— squamous epithelia of uterine cervix, immunohistochemical detection of Ca (Oxford) antigen in, **14**
Nephroblastoma, renin in, immunocytochemical localisation of, **738**
Nervous system, central, microglial cells and macrophages in, identification of, comparison of methods, **150**
Nesidioblastosis induced by chlorpropamide, hyperinsulinaemic hypoglycaemia due to, case of, **651**
Neuroblastoma, acetylcholinesterase in, histochemical demonstration of, **288**
Neutropenic enterocolitis due to *Clostridium septicum* infection, **335**
Neutrophil chemiluminescence, induction of, clinical *vs* laboratory strains of group B streptococci in (L), **228**
—— leucocytosis and disseminated bronchogenic carcinoma, high colony stimulating activity in patient with, **665**
Newborn infants. *See* Neonates
Nitric acid decalcification, rapid, control of, **1409**
Nitrite and N-nitroso compound concentrations in stomach and gastric juice pH and gastric histology after surgery for duodenal ulcer, relation between, **511**
—— estimation in gastric juice, automated (Chemlab) method for, **596**
Nitroblue tetrazolium macroreaction with phenazine methosulphate for recent myocardial infarction (L), **477**
Nitrogen, liquid, culture storage in, overcoming hazards of (L), **840**
NK1 C3. *See* Monoclonal antibody (NK1 C3)
Normoblasts in tissue sections, demonstration by immunohistochemical technique for haemoglobin, **1312**
Normoglycaemia maintained with artificial pancreas, influence on phagocytic and bactericidal functions of granulocytes in insulin-dependent diabetics, **1029**
Norwalk-like virus (small round structured virus), food borne infection by, **817**
Notices, **232, 480, 600, 720, 840, 960, 1080, 1200, 1320, 1419**
Nucleic acids, demonstration with 'oxidised' gallocyanin with chromic potassium sulphate, methods and applications, **99**
Nursing staff in Danish hospitals, hepatitis A, B, and non-A, non-B in, **763**
Oesophagus, columnar epithelium of (Barrett's oesophagus), mucin histochemistry of, prospective biopsy study, **607**
OKT9. *See* Monoclonal antibody (OKT9)
Opiate addicts, depressed antithrombin III biological activity in, **1040**
Opsonic regulation of monocyte phagocytosis by fibronectin, **787**
Opsonophagocytosis, impairment in serotypes Ib and II of group B streptococci as compared with Ia and III, and role of alternative pathway of complement in opsonisation of serotype III, **790**
Organelle pathology of skeletal muscle in chronic alcoholism, **448**
Osteoclasts, identification and redefinition of, **398**
Osteogenesis imperfecta, iliac bone histomorphometry in adults

and children with, **1081**
Ovary, epithelial tumours of, Ca (Oxford) antigen in, **6**
——, tumour of, borderline or malignant, case with therapeutic decision based on morphometry, **1110**

Pancreas, artificial, glycaemic normalisation by, influence on phagocytic and bactericidal functions of granulocytes in insulin-dependent diabetics, **1029**
——, exocrine function in diabetes mellitus, **302**
——, necrosis of, in haemolytic uraemic syndrome, case of, **655**
Pancreatic endocrine tissue in benign mediastinal teratoma, **1105**
Pancreatitis, acute, assessment and monitoring of, C reactive protein as aid to, **207**
——, alcoholic, and chronic liver disease, blood group Lewis phenotyping on erythrocytes and saliva in, **778**
Pancytopenia in systemic lupus erythematosus, myelofibrosis as cause of (L), **714**
Paneth cell population and mucosal flora of jejunum and ileum, relation between, **1268**
Papillomavirus infection, human, of uterine cervix, histological appearances in 28 cases identified by immunohistochemical techniques, **126**
Paraproteins in serum in chronic lymphocytic leukaemia, **463**
Paraquat poisoning, experimental, collagen stimulating factors from lung in, *in vitro* and *in vivo* demonstration of, **537**
Pararotaviruses (atypical rotaviruses), human, Latin American, antigenic variation in (L), **1416**
Parathyroid gland carcinoma, histological diagnosis of, **1370**
Parvovirus infection in family associated with aplastic crisis in sibling pair with hereditary spherocytosis, **1144**
Pepsinogen synthesis and secretion in isolated gastric glands, **531**
Peptic ulcer, benign, penetration of left ventricular myocardium by, 2 cases and review, **1239**
Peptide and amine hormone production by lung carcinoid, clinicopathological and immunocytochemical study, **931**
Periarteritis, coronary, chronic, in 2 patients with chronic periaortitis, **32**
Petriellidiosis, disseminated, in patient with refractory acute lymphoblastic leukaemia, **78**
Phagocytosis by monocytes, fibronectin as opsonic regulator of, **787**
——, defective, in insulin controlled diabetics with evidence for reaction between glucose and opsonising proteins, **783**
Phenazine methosulphate in nitroblue tetrazolium macroreaction for recent myocardial infarction (L), **477**
Pigment production by group B streptococci, new medium for enhancement of, **1310**
Pituitary adenomas producing growth hormone in acromegaly, **382**
Plasma, cross linked fibrin derivatives in, measurement by immunoassay with monoclonal antibodies, **882**
—— fibronectin concentration, determination of, sample collection for, **951**
—— ionised calcium in preterm infants, comparison with adults, **859**
—— proteins and minerals, early changes after surgery, 2-stage pattern of, **862**
—— viscosity, measurement of, ICSH recommendation for selected method for, **1147**
Plasmids in throat and genital isolates of meningococci, **1123**
Plasminogen activators, human and rat, in blood and vessel wall, immunological comparison between, **1153**
—— —— in alcoholic cirrhosis, demonstration of increased tissue type and urokinase type activator, **772**
——, physiological activation in full term newborn infants, **1264**
Platelet and coagulation factors in proliferative diabetic retinopathy, **659**
—— defect in acute myeloid leukaemia, **1339**
—— function in Raynaud's syndrome, assessment of, **182**
—— impedance aggregation in whole blood, methods, results and inhibition by antiplatelet drugs, **874**
—— malonyldialdehyde production in thalassaemia major, **1043**
Pneumococcal antigen, detection in Bactec blood culture media, countercurrent immunoelectrophoresis for, anomalous results with, **571**
Pneumococci and meningococci, growth of, inhibitory effect of cerebrospinal fluid, **428**
Polyacrylamide gel electrophoresis in rapid method for detection of enteric adenovirus and rotavirus, **1404**
Polyclonal and monoclonal antibody coagglutination reagents in immunological identification of *Neisseria gonorrhoeae*, **1276**
Poly-L-lysine in preparation of cell monolayers for diagnostic cytopathology, optimal use of, **829**
Polyomaviruses BK and JC, human, and cytomegalovirus in renal transplant recipients, prospective study of, **578**
Potassium depletion, renal tubular effects of, and increased ammoniagenesis, **1358**
Pre-eclampsia, fibrinolytic system in, **56**
Pregnancy, normotensive and hypertensive, maternal serum α_1-antitrypsin concentrations in, **867**
—— test, tube (Pregnosticon), false positive results with (L), **1079**; (L), **1195**
Pregnant women at term and neonates in Saudi Arabia, vitamin D nutrition in, **444**
Prostaglandin E_1 infusion in Raynaud's syndrome, haemorrheological effects of, **870**
Prostate and bladder, granulomata in, after previous operations (L), **104**
Prostatectomy and other transurethral operations, bacteraemia during, influence of timing of antibiotic administration, **673**
Prostatic, bladder, and colorectal cancer, epithelial markers (EMA, CEA, and prostatic acid phosphatase) in, immunoperoxidase study of, **1363**
—— resection specimens, necrotising granulomata in, as sequel to previous operation (L), **354**
Prostatitis, granulomatous, necrotising, after transurethral resection (L), **103**
Protein, C-reactive. *See* C-reactive protein
Proteins and minerals in plasma, early changes after surgery, 2-stage pattern of, **862**
——, basement membrane, and apocrine epithelial antigens in differential diagnosis between tubular carcinoma and sclerosing adenosis of breast, **357**
——, cobalamin and folate binding, in tumour tissue, **1336**
——, immunoglobulin and other, in CSF in Alzheimer's disease, **697**
Proteolytic enzymes, assay for blood group serology, modified azoalbumin technique for, **329**
Protozoal infection, intestinal, laboratory diagnosis of, comparison of microscopy and culture in, **809**
Pseudomonas aeruginosa in sinks in intensive care unit, relation to patient infection, **424**
Puberty, precocious, hepatoblastoma in 2-year-old boy resulting in, production of human chorionic gonadotrophin by, **734**
Pulmonary infiltrates, immunocompromised patients with, cytological examination of bronchoalveolar lavage fluid as diagnostic aid for, **390**
—— lesions (especially terminal respiratory infections), postmortem radiographic, histological and bacteriological studies in hospital and non-hospital necropsies, **1282**
Purine nucleoside phosphorylase and adenosine deaminase deficiency, immune deficiency due to, diagnostic test on urine for, **1305**
Pyuria, 'sterile', and urinary tract tuberculosis (L), **355**

Quality assessment, external, combined, of cytology and histology opinions, pilot scheme for cluster of 5 laboratories, **993**
—— ——, ——, scheme for, in histopathology, **409**
—— assurance programme, national, for urine analysis, evolution

in Australasia (1981–83), **415**
—— control, microbiological, UK national external quality assessment scheme, two antibiotic susceptibility testing trials for, comparision of results, **321**

Radioassay of folic acid by competitive protein binding in detection of folic acid deficiency, evaluation of, **888**
Radioimmune technique in estimation of IgG and IgM brucella antibodies in infected and non-infected persons, **692**
Radioimmunoassay for Coxsackie B virus specific IgM, heterotypic reactions in, **433**
Raynaud's syndrome, platelet function in, assessment of, **182**
—— ——, prostaglandin E_1 infusion in, haemorrheological effects of, **870**
Rectal biopsies and stools, of patients with diarrhoea, detection of campylobacter by immunofluorescence in, **1007**
—— organ culture as model for investigation of bacterial adhesion and invasion, **587**
Red cells. *See* Erythrocytes
Reed-Sternberg/lymphocyte rosette and lymphocyte subpopulations defined by monoclonal antibodies in Hodgkin's disease, **767**
Reflectance spectroscopy and reagent strips, Seralyzer systems using, in measurement of creatine kinase, effect of EDTA (L), **599**
Renal cell carcinoma, renin in, immunocytochemical study with antibody to pure human renin, **27**
—— failure, chronic, changes in bone histoquantitative parameters and histochemical staining reactions for aluminium in, after reduction in aluminium concentration of haemodialysis fluid, **743**
—— transplant recipients, human polyomaviruses BK and JC and cytomegalovirus in, prospective study of, **578**
—— tubular effects of potassium depletion, and increased ammoniagenesis, **1358**
—— —— function, proximal, in myelomatosis (4th MRC myelomatosis trial), **852**
Renin in nephroblastoma, immunocytochemical localisation of, **738**
—— in renal cell carcinoma, immunocytochemical study with antibody to pure human renin, **27**
Respiratory infections, terminal, and other pulmonary lesions, postmortem radiographic, histological and bacteriological studies in hospital and non-hospital necropsies, **1282**
Restriction endonuclease analysis for typing herpes simplex virus, comparison with commercial ELISA system, **937**
Reticulum cells, histiocytic and dendritic, shown by zinc iodide-osmium technique, **620**
—— ——, ——, in diffuse and follicular non-Hodgkin's lymphomas, quantitative study of, **1222**
Retinopathy, diabetic, proliferative, platelet and coagulation factors in, **659**
Retrovirus antigens in prodromal case of acquired immune deficiency syndrome, ultrastructural demonstration with immunogold staining, **1399**
Rhabdomyosarcoma, β enolase as histological marker of, **905**
Rotavirus and adenovirus, enteric, detection of, rapid method with polyacrylamide gel electrophoresis for, **1404**
Rotaviruses, atypical. *See* Pararotaviruses
Rothia dentocariosa, endocarditis caused by, case of, **1298**
Rubella specific IgM, commercial antibody capture enzyme immunoassay (Rubenz M) for detection of, evaluation of, **573**

S-100, cells labelled with, detection in nasopharyngeal carcinoma, **1235**
Safety, laboratory Howie Code for, real costs of, **83**
Saliva and erythrocytes, blood group Lewis phenotyping on, in alcoholic pancreatitis and chronic liver disease, **778**
Sclerosis, tuberous, 4 cases with unusual associated lesions, **272**
Selenium and vitamin E in relation to risk factors for coronary heart disease, **200**; (L), **837**
Septicaemia, neonatal, C-reactive protein in, sequential study with latex agglutination test, **1014**
Seralyzer systems using reflectance spectroscopy and reagent strips in measurement of creatine kinase, effect of EDTA (L), **599**
Serum albumin-bound and α_2-macroglobulin-bound zinc concentrations in healthy adults, **1050**
—— angiotensin-converting enzyme activities, increase in diabetes mellitus, analysis of diabetes type, state of metabolic control and occurrence of diabetic vascular disease, **307**
—— α_1-antitrypsin concentrations, maternal, in normotensive and hypertensive pregnancies, **867**
—— C-reactive protein concentration after bone marrow transplantation for leukaemia, measurement of, **263**
—— —— —— —— in neonates, determination by latex enhanced immunoassay, **1027**
—— —— —— measurement, value in management of bone marrow transplant recipients—in early transplant period, **1018**; in late post-transplant period, **1022**
—— creatine kinase isoenzyme levels in patients with cerebral tumours (L), **1315**
—— —— ——, total and B subunit activity, and other enzyme activity, in young persons abusing solvents, **455**
——, fetal and maternal, and amniotic fluid, γ-glutamyl transferase activity during gestation, **700**
—— α-fetoprotein concentration, increase in case of ileal adenocarcinoma complicating Crohn's disease, **293**
—— glucose agar as transport medium for *Streptococcus pyogenes*, **226**
—— 3α-hydroxy bile acid concentrations, total, colorimetric enzymatic measurement without extraction, **317**
—— IgA antibody to *Chlamydia trachomatis* detected by ELISA and immunofluorescence test in chlamydial infections, **686**
—— IgE concentrations, increase during infection and graft versus host disease after bone marrow transplantation, **460**
—— β_2-microglobulin and C-reactive protein concentrations in viral infections, **1140**
—— monoclonal immunoglobulin, detection and identification by immunoisoelectric focusing, limits of sensitivity and use during relapse of multiple myeloma, **255**
—— paraproteins in chronic lymphocytic leukaemia, **463**
—— placental type alkaline phosphatase in cigarette smokers, **826**
Sickle cell disease, glomerular function and hyperuricaemia in, **1046**
—— —— —— in Britain, review of, **1321**
Sideroblastic anaemia, acquired, idiopathic, transforming to acute myelosclerosis, case of, **1032**
Siderosis, splenic, and parenteral iron dextran in maintenance haemodialysis patients, **59**
Sinks in intensive care unit, *P aeruginosa* in, relation to patient infection, **424**
Skin biopsies, storage at −70°C for fibroblast culture, **1191**
——, fetal, rapid processing for prenatal diagnosis by light and electron microscopy, **633**
—— in allogeneic bone marrow recipients, morphological and immunohistological changes in, **919**
Smokers, cigarette, serum placental type alkaline phosphatase in, **826**
Soft tissue tumours, distribution of laminin, fibronectin, and interstitial collagen type III in, **895**
Solvents, total and B subunit activity of serum creatine kinase and other enzyme activity in young persons abusing, **455**
Somatostatin, glandular duodenal carcinoid rich in, 4 cases of, **163**
Spectroscopy, reflectance, and reagent strips, Seralyzer systems using, in measurement of creatine kinase, effect of EDTA (L), **599**
Spherocytosis, hereditary, aplastic crisis in sibling pair with, parvovirus infection in family associated with, **1144**

Spiral organisms in endoscopic biopsies of human stomach, **23;** (L), **714**
Splenic siderosis and parenteral iron dextran in maintenance haemodialysis patients, **59**
Staphylococcus aureus, growth on sensitivity testing agar, inhibition by *Streptococcus faecalis var zymogenes* (L), **228**
Starch synovitis, 3 cases of, **990**
Stomach, human, spiral organisms in endoscopic biopsies of, **23;** (L), **714**
Stools and rectal biopsies of patients with diarrhoea, detection of campylobacter by immunofluorescence in, **1007**
Streptococci, group B, clinical *vs* laboratory strains in induction of neutrophil chemiluminescence (L), **228**
——, —— ——, impaired opsonophagocytosis of serotypes Ib and II as compared with Ia and III, and role of alternative pathway of complement in opsonisation of serotype III, **790**
——, —— ——, pigment production, new medium for enhancement of, **1310**
——, group C, isolated from throat swabs, high incidence of (L), **1314**
Streptococcus faecalis strains reacting with both D and G antisera, antibiotic susceptibility and biochemical properties, **1289**
—— —— *var zymogenes*, inhibition of growth of *Staphylococcus aureus* on sensitivity testing agar by (L), **228**
—— *pyogenes*, serum glucose agar as transport medium for, **226**
—— *viridans* bacteraemia, detection of, effect of volume of blood cultured, **568**
Subarachnoid haemorrhage, traumatic, alternative (intracranial) source for, **1245**
Sucrase, lactase, and alkaline phosphatase activities, small intestinal, in 373 patients with coeliac disease, **298**
Suppressor T cell activity and antibodies to alcohol altered hepatocytes (L), **598**
Surgery, early plasma protein and mineral changes after, 2-stage pattern of, **862**
Synovitis due to starch, 3 cases of, **990**

T and B cells in blood, immunoperoxidase detection of, comparison with conventional methods, **1343**
Teratoma, mediastinal, benign, pancreatic endocrine tissue in, **1105**
——, testicular, metastatic to lung, effect of chemotherapy on histological appearances of, correlation with survival, **1212**
Terminal deoxynucleotidyl transferase and membrane antigens, method for simultaneous labelling, **628**
Thalassaemia major, platelet malonyldialdehyde production in, **1043**
Throat and genital isolates of meningococci, plasmids in, **1123**
—— swabs, group C streptococci isolated from, high incidence of (L), **1314**
Toluidine blue staining technique for detection of *Chlamydia trachomatis* inclusions in McCoy and HeLa-229 cells, comparison with other methods, **682**
Toxoplasma gondii, antibodies to, measurement of, comparison of latex agglutination test with other serological tests for, **1293**
Toxoplasmosis, disseminated, in cardiac transplantation, case of, **74**
Transferrin, ferritin and lactoferrin, distribution in breast carcinoma tissue, **51**
—— receptor, epitope of, in cervical epithelium, demonstration with monoclonal antibody OKT9, **131**
Transplantation, bone marrow, for leukaemia, measurement of serum C reactive protein concentration after, **263**
——, —— ——, infection and graft versus host disease after, increased serum IgE concentrations during, **460**
——, cardiac, disseminated toxoplasmosis in, case of, **74**
Transplants, bone marrow, allogeneic, skin morphological and immunohistological changes in recipients of, **919**
——, —— ——, recipients of, value of serum C-reactive protein measurement in management of—in early transplant period, **1018;** in late post-transplant period, **1022**
——, renal, recipients of, human polyomaviruses BK and JC and cytomegalovirus in, prospective study of, **578**
Transurethral operations, bacteraemia during, influence of timing of antibiotic administration, **673**
Trauma to brain, primary, in non-accidental injury in infants, **1095**
Tuberculosis of urinary tract and 'sterile' pyuria (L), **355**
Tuberous sclerosis, 4 cases with unusual associated lesions, **272**
Tumour, bronchioloalveolar, intravascular, hepatic metastases in case of, **279**
——, ovarian, borderline or malignant, case with therapeutic decision based on morphometry, **1110**
—— tissue, cobalamin and folate binding proteins in, **1336**
——, Warthin's, malignant, ultrastructural study of, **170**
Tumours associated with eosinophilia in bladder, **500**
——, carcinoid, of lung, amine and peptide hormone production, clinicopathological and immunocytochemical study, **931**
——, cerebral, serum creatine kinase isoenzyme levels in patients with (L), **1315**
——, epithelial, histopathology of, monoclonal antibody (CAM 5.2) to cytokeratin for use in, **975**
——, human, aneuploidy in, clinical and biological significance of, review of, **961**
——, ovarian, epithelial, Ca (Oxford) antigen in, **6**
——, soft tissue, distribution of laminin, fibronectin, and interstitial collagen type III in, **895**
Typhoid fever, serodiagnosis of, comparison of Vi indirect fluorescent antibody test with Widal agglutination method in, **805**

Ulcer, duodenal. *See* Duodenal ulcer
Ulcers, malignant, infected, bacteriology of, **592**
Ultrasonic surgical aspirator, Cavitron, histological appearances of intracranial biopsies obtained with, **1101**
Urinary tract tuberculosis and 'sterile' pyuria (L), **355**
Urine analysis, national quality assurance programme for, evolution in Australasia (1981–83), **415**
—— culture, quantitative, semiautomated method for, **831**
——, diagnostic test on, for immune deficiency due to adenosine deaminase and purine nucleoside phosphorylase deficiency, **1305**
Urokinase, antibodies to, production of, active site directed inhibitor in, **1193**

Vagotomy and gastroenterostomy for duodenal ulcer, relation between intragastric bile acid concentration and mucosal abnormality in stomach after, **506**
Vascular invasion in breast cancer, immunocytochemistry in identification of, **364**
—— wall and blood, human and rat plasminogen activators in, immunological comparison between, **1153**
Ventricle, left, myocardium of, penetration by benign peptic ulceration, 2 cases and review, **1239**
Vernier scales, use for measurement of melanomas (L), **229**
Vi indirect fluorescent antibody test in serodiagnosis of typhoid fever, comparison with Widal agglutination method, **805**
Vibrio vulnificus, necrotising fasciitis caused by, case of, **1301**
Virus infections, serum β_2-microglobulin and C-reactive protein concentrations in, **1140**
Vitamin B_{12} and folate, commercial radioassay for simultaneous estimation of, evaluation of, and establishment of normal reference range, **1327**
—— D nutrition in pregnant women at term and neonates in Saudi Arabia, **444**
—— E and selenium in relation to risk factors for coronary heart disease, **200;** (L), **837**
Von Willebrand's disease and haemophilia, lack of correlation between factor VIII related antigen multimeric analysis pattern

and parallel or non-parallel dose response curves in ELISA in, **194**
—— —— —— type IIA and classical haemophilia A, simultaneous inheritance and expression of, **1035**
Vulva, intraepithelial neoplasia and microinvasive carcinoma of, **1201**

Warthin's tumour, malignant, ultrastructural study of, **170**
White cell(s). *See* Leucocyte(s)
Whooping cough, counterimmunoelectrophoresis in diagnosis of, **950**
Widal agglutination method in serodiagnosis of typhoid fever, comparison with Vi indirect fluorescent antibody test, **805**

Xylene and formaldehyde fumes, removal from histopathology laboratories and design of extraction systems, **401**

Zinc, albumin-bound and α_2-macroglobulin-bound, concentrations in sera of healthy adults, **1050**
Zinc iodide-osmium technique in demonstration of histiocytic and dendritic reticulum cells, **620**

Contents

No 1 JANUARY 1984

Page

Distribution of the Ca (Oxford) antigen in lung neoplasms and non-neoplastic lung tissues FJ PARADINAS, G BOXER, KD BAGSHAWE 1
A study of the Ca antigen in epithelial tumours of the ovary AM FERGUSON, H FOX 6
Evaluation of the Ca1 antibody in the diagnosis of invasive breast cancer DGF CLOUGH, GR COGHILL, MP HOLLEY 10
Immunohistochemical detection of Ca antigen in normal, dysplastic and neoplastic squamous epithelia of the human uterine cervix JM LLOYD, T O'DOWD, M DRIVER, DEH TEE 14
The larger bronchi in byssinosis: a morphometric study C EDWARDS, A CARLILE, G ROOKE 20
Spiral organisms in endoscopic biopsies of the human stomach TP ROLLASON, J STONE, JM RHODES 23
Renin in renal cell carcinoma—an immunocytochemical study using an antibody to pure human renin GBM LINDOP, S FLEMING 27
Chronic coronary periarteritis in two patients with chronic periaortitis MJ MITCHINSON, DGD WIGHT, J ARNO, BB MILSTEIN 32
Immunohistochemical localisation of factor VIII-related antigen in Hodgkin's disease J CROCKER, PJ SMITH 37
Intracellular inclusion bodies in 14 patients with B cell lymphoproliferative disorders O PETERS, C THIELEMANS, L STEENSSENS, M DE WAELE, W HIJMANS, B VAN CAMP 45
Distribution of ferritin, transferrin and lactoferrin in breast carcinoma tissue R ROSSIELLO, MV CARRIERO, GG GIORDANO 51
The fibrinolytic system in pre-eclampsia L GOW, DM CAMPBELL, D OGSTON 56
Splenic siderosis and parenteral iron dextran in maintenance haemodialysis patients JA MURRAY, DN SLATER, MA PARSONS, M FOX, S SMITH, MM PLATTS 59
Automated detection of micro-organisms in blood cultures by means of the Malthus Microbiological Growth Analyser DFJ BROWN, M WARNER, CED TAYLOR, RE WARREN 65
Development and evaluation of a miniaturised method as an aid to the identification of clinically important anaerobic bacteria PN LEVETT 70
Disseminated toxoplasmosis in cardiac transplantation CGA MCGREGOR, DG FLECK, J NAGINGTON, PGI STOVIN, R CORY-PEARCE, TAH ENGLISH 74
Disseminated petriellidiosis (allescheriasis) in a patient with refractory acute lymphoblastic leukaemia LY SHIH, N LEE 78
The Howie Code: what are the real costs? CH COLLINS, JW HOWIE 83
Pathophysiology of human lipoprotein receptors: clinical consequences of a cellular defect J SHEPHERD, CJ PACKARD 87
Comparative trial of six methods for the detection of CMV antibody in blood donors AF HUNT, DL ALLEN, RL BROWN, BA ROBB, AY PUCKETT, CC ENTWISTLE 95
Technical methods
A selective enrichment broth for the isolation of *Clostridium difficile* SHEILA O'FARRELL, M WILKS, JQ NASH, S TABAQCHALI 98
Rapid demonstration of nucleic acids using "oxidised" gallocyanin and chromic potassium sulphate; methods and applications OAN HUSAIN, KC WATTS 99
Letters to the Editor 101
Book reviews 105
Some new titles 106
Corrections 107

No 2 FEBRUARY 1984

Review article
Interferons PG HIGGINS 109
Detection of *Clostridium difficile* in faeces by direct gas liquid chromatography PN LEVETT 117
Isolation of *Chlamydia* using McCoy cells and Buffalo green monkey cells PJ WILLIS, L JOHNSON, RG THOMPSON 120
Rapid detection of antibodies against cytomegalovirus induced immediate early and early antigens by an enzyme linked immunosorbent assay MONICA MUSIANI, CRISTINA CARPI, MARIALUISA ZERBINI 122
Human papillomavirus infection of the uterine cervix: histological appearances in 28 cases identified by immunohistochemical techniques JL DYSON, PG WALKER, A SINGER 126
Demonstration of an epitope of the transferrin receptor in human cervical epithelium—a potentially useful cell marker JM LLOYD, T O'DOWD, M DRIVER, DEH TEE 131
Detection and distribution of aluminiu.n in bone J DENTON, AJ FREEMONT, J BALL 136
Primary tumorous aldosteronism due to a black adrenal adenoma: a light and electron microscopic study IK SIENKOWSKI, RM WATKINS, VER ANDERSON 143
Comparison of methods to identify microglial cells and macrophages in the human central nervous system MARGARET ME ESIRI, J BOOSS 150
Computerisation of histopathology/cytology records—use of a commercial data storage system SG SUBBUSWAMY, A MCCORMICK, EE PETERS 157
Glandular duodenal carcinoid—a somatostatin rich tumour with neuroendocrine associations DFR GRIFFITHS, B JASANI, GR NEWMAN, ED WILLIAMS, GT WILLIAMS 163
Malignant Warthin's tumour: an ultrastructural study LJR BROWN, SR APARICIO 170
Glomerulonephritis with coexistent immune deposits and antibasement membrane activity S RAJARAMAN, JS PINTO, T CAVALLO 176
Assessment of platelet function in patients with Raynaud's syndrome RA HUTTON, DP MIKHAILIDIS, RM BERNSTEIN, JY JEREMY, GRV HUGHES, P DANDONA 182
Normal values for peripheral blood white cell counts in women of four different ethnic origins BARBARA BAIN, MARY SEED, I GODSLAND 188
Lack of correlation between factor VIII related antigen multimeric analysis pattern and parallel or non-parallel dose response curves in an ELISA factor VIII related antigen assay PE SHORT, CE WILLIAMS, MS ENAYAT, AM PICKEN, FGH HILL 194
